

## Learning Journal 4.7.14

On Wednesday we had a fantastic time at Bamburgh in the rock pools.

We found crabs and star fish,

snails, a hermit crab, several kinds of fish and thousands of mussel shells, barnacles and limpets.

Does anyone know what this anemone type thing is? We have no idea but it was really beautiful.

It was tricky to catch them at first but we soon got the hang of it.

Back on the beach we had a wonderful time playing on the sand. We drew pictures in the sand. This one was made by Sam and Rory. We made fantastic sand castles and Mrs Hammond helped us to build a

boat which we sailed all morning. In the children's own words they made a 'gooey hole' where the water oozed up from the sand.

We all enjoyed eating our lunch and having snacks and we had the best trip ever!!!

Next week we have a special World War One lunch on Friday and school will be closed to children on Thursday due to strike action. Please make sure your child has a PE kit in school as we are practising for sports day whenever we get the chance. Sports day is on Monday 14<sup>th</sup> July and all parents and families are welcome to watch their children in the sports and to stay for a family picnic afterwards. Please let us know if your child would not normally be in school all day and you want them to stay for lunch and sports day as we need to adjust dinner numbers. Just before the sports begin we will have a short music hall performance from the children, which we hope you can attend. We are looking forward to all the exciting end of term events and to sharing them with you all.
