

Our Reception pupils are working on the 'Read Write Inc.' literacy programme. At the core of RW Inc. is the phonics programme, where our children learn the 44 common sounds in the English language and how to sound-blend words for reading (decoding) at the same time as developing handwriting skills and spelling (encoding).

The pupils read lively storybooks and non-fiction books and are taught to comprehend and to compose (out loud).

They move on to the 'Language and Literacy' programme when they reach the required reading level.
