

Our Creative Curriculum Enquiry Based Approach to Learning

Through our Creative Curriculum we use an enquiry based approach to learning allowing pupils to learn in a fun, flexible but real-life context. We use 'whole school' topics to promote collaboration and shared learning experiences across school. Subject content within each topic is adapted to support the interests of pupil groups. (Please see Creative Curriculum overview on website.)

Through this approach, children are encouraged to research, investigate and solve problems through 'hands-on' experiences in order to inform their learning.

This encourages children to take ownership of their learning and become engaged, independent and motivated.

Our curriculum meets the requirements of the Primary National Curriculum. The curriculum is taught using a variety of teaching and learning styles.

We engage pupils to learn through 'big question' led enquiries about topics, places, themes and issues. This allows for the development of growing subject knowledge as pupils progress through school, balanced with the important development of subject skills and the ability of pupils to think critically about what they are learning and why. This enquiry based approach allows the pupils to develop their higher order thinking skills, making links and connections between their learning.
