

Christmas through the keyhole!

We had a fantastic time exploring Christmas through the key hole! We walked across to the church and explored clues along the way. We explored different areas of the church which introduced us to different parts of Christmas.

Below is Joseph's workshop! We looked at different tools that he would have used and discussed what life would have been like.

We visited the stable where Jesus was born. We looked at different objects and compared them to things we would use today.

Outside we visited the shepherds and explored the news they were given by the angel. We discussed the good news and how they would have been feeling.
