Covid-19 Update

So far, we have no in-school transmission of Covid-19 and we are continuing to be very vigilant, as we want everyone to have their safe, precious family Christmas time together.

Please remember that children can have very varied Covid symptoms, including sickness, so please keep any unwell pupils at home and we will, of course, send anyone home as quickly as possible who develops any symptoms whilst with us. There will be all the usual winter bugs in circulation too. Please remember to have an emergency contact readily available for us and keep your mobile contact details updated for us. Thanks!

Santa Paws

Many thanks to the pupils who submitted poster entries for this competition, as well as to all who gave donations to the RSPCA. Last Friday, PC Peter Baker came to collect the entries.

Christmas

It's starting to look a lot like Christmas in school, now it has reached 1st December.

It is delightful watching the younger bubble rehearse for their Nativity performance (from a safe distance!) Space Base pupils are amazing singing Christmas songs (they know lots more than me) and an important letter has arrived from Santa Claus, along with Ernie the Elf. The older bubble has decorated a Christmas tree and there is a huge amount of tinsel in Key Stage 2.

Remember to check important dates given in the last newsletter, as well as on the school website.

Things are different this year, but we will determinedly have fun and share the joy and hope of the Christmas story.

Stay safe!

Kindest regards,

Diane Lakey
