### Statement of Intent

#### 1. Curriculum Intent

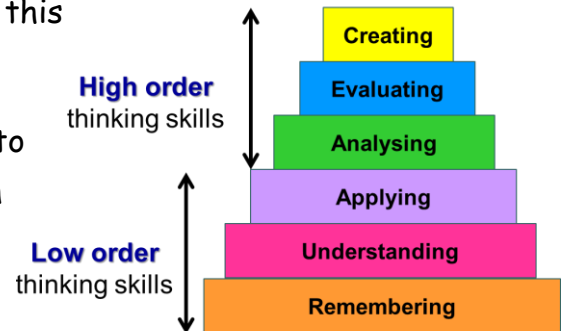

##### Our Curriculum: A Curriculum for Life

Our ambitious curriculum is designed to develop, in all of our pupils, curiosity about the world around them, so they are eager to develop the skills, knowledge and understanding they need to succeed in life and be life-long learners. Our pupils love learning when it is based in real-life contexts, adapts to their interests and allows hands-on exploration and investigation. For example, our long held Eco-school status and Global Citizenship learning prepare our pupils well for future success.

Within our context in the North of England, STEM industries are major employers, therefore, STEM subjects (Science, Technology, Engineering and Maths) form the core of our enquiry curriculum. Alongside this emphasis, developing a love of reading is key to future learning and employment.

Through our Creative Curriculum we use an enquiry based approach to learning allowing pupils to learn in a fun, flexible but real-life context. We use topics to promote collaboration and shared learning experiences. Subject content within each topic is adapted to support the interests of pupil groups. Information about our two-year topic cycle is available within this 'curriculum' section of our website.

Through this approach, children are encouraged to research, investigate and solve problems through 'hands-on' experiences in order to inform their learning.

This encourages children to take ownership of their learning and become engaged, independent and motivated.

Our curriculum meets the requirements of the Primary National Curriculum. The curriculum is taught using a variety of teaching and learning styles.

We engage pupils to learn through 'big question' led enquiries about topics, places, themes and issues. This allows for the development of growing subject knowledge as pupils progress through school, balanced with the important development of subject skills and the ability of pupils to think critically about what they are learning and why. This enquiry based approach allows the pupils to develop their higher order thinking skills, making links and connections between their learning.

## 2. School Vision and Values

### Foundation

The school was established in 1857 "for the education of poor persons of the parish of Ellingham according to the principles of the Church of England." This provides the school with a sense of history, tradition and community with St Maurice's Church, Ellingham.

### Vision

**'A small school with a big heart!' - a Christ centred community where each person can become who God intended them to be.**

**This is founded in the teachings of Jesus:**

**Luke 10:27**

**'Love the Lord your God with all your heart and all your soul and all your strength and all your mind;' and 'Love your neighbour as yourself.'**

### **Mission**

- \* We endeavour to develop the potential of each and every child to achieve life in all its fullness, through an engaging, enquiry-based curriculum of the highest quality.
- \* To live well together with community and church, so that all can flourish.
- \* To foster curiosity and delight in learning; developing confidence, resilience and wisdom.
- \* As a small school, to know, value and support each person as a unique individual of inherent worth.
- \* To develop and nurture the spirituality of each person and to encourage, in all a desire to serve others.
- \* To open our hearts to others so each may grow in their knowledge of themselves, and their value as a global citizen.

**In Ellingham School, we aim to live through the following values which reflect our Christian vision:**

**Compassion, Endurance, Justice, Service, Stewardship, Reverence and Wisdom**
